

THE MODULE

This module is a specialized magazine available for new masters students at the department of Computer Science and Engineering (Datalogi- sektionen in swedish, DTek in short, roughly translated to the Data Tech Section). The module's purpose, other than to entertain and amaze, is to be your guide through the first two weeks of the upcoming years at Chalmers. It describes individuals, associations, committees and activities that you might run into at Chalmers in general and at the computer division in particular. If you are interested in learning more about us, the events you can attend and the division, you should read this publication!

The choice is yours and, whatever that may be, we hope that you have the best of times here at Chalmers!

MASTER PROGRAMS

The computer division at Chalmers University of Technology offers three different master programs, the students of which all receive this module and are invited to our events. The following programs are

MPALG Algorithms, Languages and Logic

MPCSN Computer Systems and Networks

MPHPC High-Performance Computer Systems

What's most important is that students stay in touch with one another: that's why you should join the following groups in order to discuss courses and keep track of activities going on within your Master's programme!

Make sure to also join the official Dtek discord for each of the master programs and the facebook group we created for you this year. All links can be found at dmnollk.se!

EVENTS

Over the course of your first weeks we have arranged several events and relaxed gatherings where you can take a chill pill and just hangout, have some fun and make some of those new faces more familiar.

Maybe you want to find some study buddies to ease the tension of the courses with? Or, maybe you are just starting your hunt for your very own Swede to befriend and display as proof of existence for family and friends back home? Maybe you are tired of the Swedes already and are searching for a fresh mind from abroad to talk with? Or you might be a fun-junkie that just loves a good time and a laugh?

All of the above? Whatever your goals are, we will do our best to fulfill them during these two weeks.

Take the opportunity and attend the crazy fun exciting mind-blowing sophisticated yet normal (in a Swedish sense) events. You can read more about each event in the following pages, also remember to check or channels to stay updated!

The events presented in this module is also available in our calendar at dmnollk.se, which we strongly recommend you to follow to not miss out on any fun!

WELCOME EVENT

August 29th

Free event

No signup

17:17 at Deltaparken

During your first day you will get a lot of information about your Master's program and the courses you will have. Take the chance to restore your brain and just relax and hang out with some of your new classmates at the Delta Park after your first classes. The park is located just outside of Basen, the place where you as a student of the computer division, will have access to and is always welcome to study or use our microwaves and kitchen.

While you bask in the dubious sun getting to know one another, DMNollK will be handing out some juicy food (vegan choice available) and beverages. Moreover, we will have a quiz walk / treasure hunt to show you the campus and introduce you to some of the other committees at our department.

CLIMBING

September 2nd

Free to attend, gear can be rented at a small cost

Limited spots, make sure to sign up! (find the link at dmnollk.se)

19:45-22:00 at Fysiken Klätterlabbet Centrum

Bad weather? Yes, no? Who cares when you can take outside inside! Look for the big oxidized copper dome on the edge of campus and join us for some climbing. Beginner or pro, come as you are!

Prepare to get a bit sweaty, so grab your workout clothes if you have any. They have a limited number of climbing shoes available to borrow, so bring climbing shoes if you have any, otherwise any normal indoor-gym shoes would also work. There are changing rooms and showers for those who wishes.

Come join us in an evening of walls, sweat and tears.

INTERNATIONAL SITTNING

September 3rd

Small cost to attend

Limited tickets, make sure to sign up! (find the link at dmnollk.se)

18:00 at Basen

Sittings are one of the oldest traditions at Chalmers and this one comes with a delicious three course dinner! The wonderful cooking committee DKock will be making the food and when that happens, nothing can go wrong!

You will learn the rules of a sitting and maybe do something that may resemble singing. All is prepared for your enjoyment and the toastmasters will make sure that the evening is unforgettable!

TRIP TO DELSJÖN

September 5th

Free event

No signup

Meet 17:17 at Basen, then we will take the tram together

Gothenburg is actually surrounded by an amazing environment. It is not only close to the sea but also near lush forests and clear lakes. We will meet near Basen where we will take the public transportation to the area of Delsjön. Feel free to bring your guitar or favorite outdoors game! We will also organize a bbq. Stay tuned and remember to bring clothes appropriate for the weather!

GAME NIGHT

September 7th

Free event

No signup, first come first served

17:17 at Basen

The committee called DLude will supply us with some awesome games.
There will also be hot dogs and cold beverages.

You're more than welcome to stop by our game night to play games that you already love, or maybe to try some new games and make frenemies forever.

CRAYFISH PARTY

September 9th

Small cost to attend

Limited tickets, make sure to sign up! (find the link at dmnollk.se)

18:00 at Tågvagnen

A crayfish party is a classic Swedish tradition, taking place during late summer. You don't want to start your second week as a master's student without singing hilarious songs while trying to figure out how to eat the delicious, red, crazy looking shellfish!

Crayfish is the main star of this evening but you will also be served side dishes along with a nice sip of traditional Swedish snaps that goes down well with the food! Of course there will be a vegan alternative too, so make sure to be there either way!

This is the sittning with the big S. Get a ticket as soon as possible as there are only a limited amount!

MORE EVENTS

Apart from DMNollK, there are more committees at the computer division that will be organizing all kinds of events, everything from job fairs to a nightclub. These committees also serve the computer students at the bachelor's degree level. But how should one keep track of all of these happenings?

Over at [dtek.se](#) you'll find the department's own hub with links to several resources like the campus shop or the photo archive and emails to most committees.

Apart from DMNollKs calendar specific to computer division master students, dtek.se also have another calendar that is open for all students at our division throughout the year! There is also a newsletter for us to subscribe to, to receive current information on a weekly basis!.

DMNOLLK

DMNollk is the master reception committee for the first-year master students. We are, and soon you will be, a part of the department of Computer Science and Engineering. During your first two weeks here at Chalmers, we will host several different events, both on campus and on other locations around Gothenburg. The idea is for you all to make some new life-long friends and take part in some of Chalmers many traditional events along with some typical Swedish activities.

We are also here to answer any questions you may have, just look for the people in bright orange trousers! We also encourage you to visit our [facebook](#), [instagram](#) and our [webpage](#).

Chairman	Felix	Schulze
Finance Manager	Jacob Rohdin	
Module Manager	Alexandra Parkegren	
Communicator	Tom de Ridder	

MORE COMMITTEES

All over campus you'll see people walking around in colourful pants or overalls: they're not worn just for fun but show which committee they belong to. Keep an eye out for deep orange which is the colour of the computer division! The committees that are working to make your years at Chalmers into some of your best, are introduced in the following pages.

What follows now is a list of committees and people you'll meet here whose job is to make sure you always have a healthy study environment, make your voice heard if any issues arise with your courses, hang out with friends on campus between lecture hours and even later than that, cultivate one or more hobbies, keep yourself somewhat in shape and/or well-fed, find a summer job (or a project for your Master's thesis, why not?) or dial down on the computer stuff with intensive hacking!

The student division board

The Bureau, the core of the Student Division board, does plenty of paperwork and makes sure that everything that makes the Student Division tick works smoothly. The Bureau also convenes both the Student Division Meetings, where all the students of the division gather to vote about the future and economy of the division itself.

SAMO

You can contact the Student Safety and Welfare Representative who is part of the Board, if you have any concerns about your study environment or any welfare concerns.

DAG

DAG is the Corporate Relations Committee for the computer division and works to be the link between students and industry. They arrange some lunch lectures and every autumn together with similar committees at the IT and Electro department, they arrange a career fair called DatE-IT.

DFoto

DFoto is the photography committee for the computer division. They take pictures at events arranged by its committees and upload them to DFoto.se!

DNollk

DNollk is similar to DMNollk but arranges events for the new bachelor students.

DRust

DRust primarily maintains the student division headquarters, called Basen where you can find cooking equipment, vending machines among others. They also have tools that students can use if needed.

D6

The “sexmästeri” is the student committee that throws parties. The night club of Chalmers, called Gasquen, is situated in the student union building, Sometimes D6 arranges magical parties there and at other times they serve drinks at pub nights in Basen.

Delta

Delta is the PR association and is in charge of running the division's very own pub where there are lots of tasty beers of different alcohol levels as well as the delicious "Deltaburgers with cheese". They also organize ski trips and beer-chugging contests called "Häfv".

dHack

dHack is a committee whose aim is to keep the computer division's services up and running. dHack also occasionally arranges different activities to promote interest in technology, like a hackathon.

DLude

The computer divisions Ludologer devote themselves to games in all forms, digital as well as analog, long and short. They arrange game nights and LAN and sometimes cooperate with other student divisions to do tournaments, MTG drafts or days full of games.

iDrott

iDrott is the association for all computer technologists who want to stay active in good company. They arrange sport activities, as well as putting together teams to represent the computer division in the prestigious Chalmers Championships in different sports. They also have sporting equipment you can borrow.

DKock

With ladles, knives, pots and frying pans, DKock makes their best efforts to keep every member of the student division full and satisfied and helps other committees make better food.

dBus

dBus takes care of the sections own minivan. The car is available for any student at the computer division to rent. How to book the bus and what rules apply can be read at wiki.dtek.se/wiki/Databussen

jämställID

JämställID is the computer division's equality committee. They make sure to promote equality in the section, and that every conceivable computer technologist should feel welcome in the section

DNS

The Student Educational Committee (Datas Nämnd för Studier) has the primary mission is to convey the opinions of the students to the education to the programme management team. DNS also plays a major role in enhancing the education through evaluating courses to assess and improve teaching approaches and course content for the next year, as well as addressing long-term issues in order for the education to maintain its competitive position.

STUDENT GUIDANCE

Student Guidance Counsellor

They are here to help students through their studies at Chalmers. This includes difficulties you may have with your studies, courses, exams as well as other concerns such as your physical or psychological health situation. You can find them at Sven Hultins gata 8 at campus.

MPCSN Lena Sommarström

MPALG Ingegerd Nilsson

MPHPC Ingegerd Nilsson

Director of studies

They can help you with questions having to do with the content of a course or how different courses can be combined. They can also help you with credit transfers and course exemptions.

MPALG Elke Mangelsen

MPCSN Hadi Zarshamfar

MPHPC Hadi Zarshamfar

Director of Master's programme

Some of you will also have the different directors of studies as teachers during your stay at Chalmers..

MPALG Krasimir Angelov

MPCSN Vincenzo Massimiliano Guisano

MPHPC Pedro Trancoso

HTTP://MAPS.CHALMERS.SE

Bus and tram station

Train wagon

Deltaparken

Chalmers also has facilities together with Göteborg University, and at Onsala Space Observatory, and on other locations in and around Göteborg.
